THE BEST BUSINESSES IN KENT GET RECOGNITION

TONBRIDGE (KENT) – Friday 25th November '11 – The winners of ‘The West Kent Business Excellence Awards 2011’ were announced yesterday at a glittering night in Tunbridge Wells. The eagerly expected event took place at The Spa Hotel and was organised by Courier Media in association with the West Kent Chamber of Commerce and Industry.

Genesa Ltd, a national company headquartered in Kent with a long experience in the telecommunication sector and in the software development arena (www.genesa.co.uk), played its part by sponsoring the ‘Best New Business’ category. As a perfect conclusion to a stringent selection process that lasted a few months, Gerard Garcia, the Managing Director of Genesa Ltd, proudly awarded 3 companies within the category. The Small Company award went to Bertie’s Wood Fuel Ltd, the Medium Company award was handed out to Super Mango Ltd and the Large Company award was won by Blue Chew Digital Ltd.

Gerard Garcia commented: “Kent is blessed by a striving business community that doesn’t usually get much recognition for its hard work and dedication. During the selection process I came across extremely talented teams and individuals who indeed have what it takes not only to enjoy success, but also to be an inspiration to others in these difficult economic times. I was particularly impressed with the 3 winners of my categories: they deserve the exposure and recognition that such an Award programme provides, but most of all they have my personal admiration and heart felt congratulations for their drive, enthusiasm and success. I am sure that they will go from strength to strength”.

The words of Simon Hume-Kendall, the main judge with a true local success story, brought the official part of the event to a close thanking all category judges and ambassadors of their commitment and hard work, but most of all the category entrants for their tireless efforts and dedication, which benefits the entire Kent community and the country as a whole.
